Health Warning issued at time of publication by the Environmental Health Directorate for Area below the Mediterranean Conference Centre Mediterranean Street, Valletta

The following is an updated site classification report for the indicated official bathing sites. The sites are regularly monitored by the Environmental Health Directorate as part of its Bathing Water Monitoring Programme. The classification is calculated on all samples collected from each individual site during the monitoring programme and not on the latest sample result collected during the week.

EU: EU Directive site classification based on BOTH Intestinal Enterococci and Escherichia coli - 95th Percentile

Further information related to the bathing site can be obtained from the [EHD BathingWaterPortal](http://bathingwater.gov.mt/) or website <http://bathingwater.gov.mt/>.
